## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-4 & 8 drawn to a fee proxy system classified in class 705 subclass 74
  - II. Claim 5, drawn to a banking suite management server classified in class 705 subclass 40
  - III. Claim 6 drawn to proxy settlement contract management server classified in class 705 subclass 64
  - IV. Claim 7 drawn to account management server classified in class 705 subclass 78
2. Because these inventions are independent or distinct, there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.
